Specifications Required:-

- O.S:- Windows 10 Home or Higher.
- Ram:- 4GB or higher.

Steps to Install all the dependencies:-

1. Extract all the files from the .zip folder.
2. Install nodejs - <https://nodejs.org/en/download/>
3. Install **create-react-app**
Run this command on the terminal: `npm install -g create-react-app`
4. Open the folder named Jenereta.
5. Open cmd there and navigate to time-table folder on the terminal using `cd time-table` and then run the command `npm install`.
6. Now from time-table path on cmd navigate to client folder on the terminal using `cd client`, the path should look like /time-table/client on cmd and again run the command `npm install`.

To run the project-

1. Navigate to time-table folder on the terminal and run- `npm run dev`
